

Please read carefully the assigned reading (Ch. 10) and then answer the questions below, referring back as needed. Bring your answers to class on Weds. 1st and hand them to me. The answers need only be brief, but they must be in your own words.

1. According to Peter Godfrey-Smith, what is (philosophical) naturalism?
2. What is foundationalism? How does naturalism oppose foundationalism?
3. Why does Peter Godfrey-Smith think that the theory-ladenness of observation reports is not a threat to the falsification of theory by evidence?
4. What reason does Fodor (summarized by PGS) give to be skeptical of Kuhnian claims that our experiences depend on the theories we accept?
